

## **Omni-ID Named Emerging Technology Award Winner for 2015**

Company recognized as industry leader for Most Outstanding in Radio-Frequency Identification Solutions

**Rochester, NY (December 1, 2015) -- Omni-ID**, the leading global supplier of high-performance, [industrial RFID tags](#) and [ProVIEW](#) visual tagging systems today announced it has been named an Emerging Technology Award Winner for 2015 in the category of Most Outstanding in Radio-Frequency Identification Solutions.

“We are very excited to be recognized for our industry leadership in providing the Most Outstanding RFID Solutions globally,” said George E. Daddis, Jr. PhD, CEO of Omni-ID. He continued, “We take great pride in not only offering the highest quality products but a complete, best in class solution from hardware to software to personalized implementation and customer service. We are designing innovative solutions for industry enabling companies around the globe to leverage the power of the Industrial Internet of Things to track and manage their material flows.”

Leah Jones, Awards Director of the 2015 Emerging Technology Award Winners guide, stated, “For this competition, we looked for companies that displayed innovation, creativity, vision, and a willingness to take risks, and take great pride in sharing their accomplishments with the world.” She continued, “It is really exciting to see how technology is now a vital feature of modern day life. Having the opportunity to reward leading role models for their innovation and vision in the technology sector demonstrates the pervasiveness of the industry”.

The Corporate LiveWire Emerging Technologies Awards recognizes companies worldwide who are leading the technological revolution through their vision and innovation. Businesses and organizations are assessed based on those breaking new ground and reshaping the playing field in areas such as the medicine and health care we receive; adapting the way we work; and changing every aspect of our lives from the way we travel to how we access information and remain connected to the wider world. The winners are those deemed to be creating the most innovative breakthroughs providing solutions to the most pressing global challenges of our time.
